

Operations & Risk Management

Provide your team with the right tools to be successful!

This course is the ideal class for any ice rink employee. Administrative and managerial staff will take away an in-depth knowledge on assessing risk and understanding potential liability, while operations staff will become more familiar with their role in safeguarding their facility through documentation, compliance with OSHA regulations, and the importance of indoor air quality. Presentations on energy management and new technologies, facility cleaning, and the importance of preventative maintenance, help round out this course.

Topics Included in Course:

- Facility Documentation
- Understanding OSHA
- Facility Walk-Throughs and Inspections
- Insurance Evaluation and Purchasing
- Indoor Air Quality
- Employee Policy Manuals
- Preventative Maintenance

This course will be 2.5 days.

4/28/25-4/30/25

Monday, 8:30-4:30 pm

Tuesday 9:30-4:30 pm

Wednesday 8:30-10:30 followed by the exam.
